

Environment Policy

Platinum Logistics Pty Ltd is an Australian owned and operated company, providing freight transport and logistics services, primarily in Western Australia.

Platinum Logistics recognises that care and management of the environment is the Company's responsibility and shall conduct itself with full consideration of the following environmental objectives:

- Continue to develop and implement environmental management principles and practices in all construction activities in accordance with relevant legislation and Client policies and procedures.
- Commitment to the prevention of pollution and damage to the environment and minimising any potential impact on the community.
- Commitment to continuous improvement of the Environmental Management System through ongoing auditing.
- Provide education and training to increase awareness and knowledge of environmental issues and responsibilities.
- Allocate adequate resources to implement environmental initiatives.
- Communicate and consult with the Client on the potential environment aspects and impacts of our construction operations.
- Reduce, Reuse and Recycle waste materials, wherever practical, and disposal of waste materials in an environmentally responsible manner.
- Purchase products which are safe and without adverse environmental impact.
- Strive for sustainable development through responsible business decisions.
- Set measurable targets and objectives for improvement of environment management system.

Platinum Logistics shall periodically review this policy and communicate regularly to employees and contractors, ensuring individual responsibilities are understood. It is the responsibility of Management and Supervisors to ensure that this policy is implemented and maintained at all levels throughout the organisation.

Mario (Doc) Radoccia
Manager
