

Injury Management and Return To Work Policy

Platinum Logistics Pty Ltd is an Australian owned and operated company, providing freight transport and logistics services, primarily in Western Australia.

Platinum Logistics is committed to assisting injured workers to return to work as soon as medically appropriate and in the event of a work related injury or illness will adhere to the requirements of the various State Workers Compensation legislation and Code of Practice.

Management supports the injury management process and recognises that its success relies on the active participation and cooperation of the injured worker, their treating doctor and the employer. In the event of a workplace injury or illness, we will follow the steps outlined in our Injury Management System. A copy of the Injury Management System is available to all staff on request.

We value early reporting of injuries so that the injury management system may be applied at the earliest opportunity.

We are committed to ensuring that the focus of injury management is the safe and durable return of injured workers. Wherever possible, suitable duties will be arranged internally having regard for the injured workers medical restrictions. Where this is not immediately possible, we remain committed to ensuring injured workers achieve the most appropriate return to work outcome.

Mario (Doc) Radoccia
Manager
